

HOSTEL & FOOD

The Real College Life Begins Outside the Classroom

My experience • My tips • Your choices

Presented by: Nisarg Patel

My Home Away From Home

MY HOSTEL JOURNEY

Since 1st Year → Royal Care Hostel

Hostel taught me more than just academics:

Taking care of myself

Making new friends

Building connections with seniors

Becoming more independent

Learning to live with others

"You don't just live in a hostel... you grow here."

Life Becomes Easier Together

WHY HOSTEL / PG?

Study Together

Journals • Assignments • Exams

Learn Together

Notes • Materials • Senior
Guidance

Grow Together

Friends • Connections •
Experiences

One room → Many experiences.

🌙 Nightouts? Freedom with Limits.

HOSTEL = FREEDOM + SECURITY

Hostel life gives you freedom, **but safety comes first.**

🔒 Hostel security & entry rules

🕒 Fixed timings / night restrictions

📞 Guardians & hostel management stay connected

👥 Going out with friends is easier when planned properly

Rules may feel restrictive... but they are there for your safety.

😋 "Aaj Khane Mein Kya Hai?"

FOOD 🍲

🏠 HOSTEL

Breakfast → Lunch → Dinner

Your meals are already planned.

- ✓ No daily food planning
- ✓ Saves time
- ✓ Fixed routine
- ✓ Food available at your place

Less thinking. More time for yourself.

PG = More Choices... More Decisions!

PG LIFE: THE DAILY FOOD QUESTION

Every day:

You get more freedom with food... but sometimes **freedom takes time**.

And yes... Nadiad has options!

McDonald's	La Pino'z
Subway	Swad
Navjeevan	Dankawala

YOU ARE FREE!

THE BEST PART

Hostel/PG life gives you something new:

CHOICE.

You can...

 Study

 Follow your hobbies

 Or simply take a break!

Your day = Your choice.

 Learn new skills

 Hang out with friends

 Go to the gym

 Explore Nadiad

With Great Freedom Comes Responsibility

BUT REMEMBER...

You have **24 hours**.

The question is not:

"How much free time do I have?"

The question is:

"What am I doing with it?"

-  Manage your time.
-  Give priority to what matters.
-  Enjoy college without losing your direction.

Study + Skills + Friends + Fun = College Life

There Is No Fixed Template

College gives you the freedom to:

Try

Fail

Learn

Improve

It's completely okay if initial attempts don't go as planned:

- Studying only from notes might yield unexpected results.
- Last-minute preparation might not get the marks you wanted.
- Trying a new skill might reveal it's not for you.

☐ Your 1st Year is the best time to experiment, since 1st Year SPI doesn't count towards placements at DDU. Use this time wisely!

ENJOY THE FREEDOM. BUILD YOURSELF.

CONCLUSION

Independence

Friendships

Experiences

Growth

So...

Make sure that when you leave college, you take something much more valuable with you than just a degree. ❤️
